FUEL PROCESSING TECHNOLOGY

CONTENTS

Special Issue: Trace Element Transformations in Coal-Fired Power Systems, Scottsdale, AZ, 19–22 April 1993

Preface 1

Pathways of trace elements in power plants: interim research results and implications (Keynote Paper)
W. Chow, M.J. Miller and I.M. Torrens (Palo Alto, CA, USA) 5

Modes of occurrence of potentially hazardous elements in coal: levels of confidence
R.B. Finkelman (Reston, VA, USA) 21

Mercury in North Dakota lignite
K.A. Katrinak, S.A. Benson, K.R. Henke and D.J. Hassett (Grand Forks, ND, USA) 35

Speciation of arsenic and chromium in coal and combustion ash by XAFS spectroscopy
G.P. Huffman, F.E. Huggins, N. Shah and J. Zhao (Lexington, KY, USA) 47

Feasibility of combined wavelength/energy-dispersive computer-controlled scanning electron microscopy for determining trace metal distribution
K.C. Galbreath and D.W. Brekke (Grand Forks, ND, USA) 63

Role of coal cleaning in control of air toxics
D. Akers and R. Dospoy (Homer City, PA, USA) 73

Comparison of trace element contents of raw and clean commercial coals
M.S. DeVito, L.W. Rosendale and V.B. Conrad (Library, PA, USA) 87

Session One: Trace Elements in Coal 107

Trace elements in coal and their dispersal during combustion (Keynote Paper)
D.J. Swaine (Sydney, Australia) 121

Overview of trace element partitioning in flames and furnaces of utility coal-fired boilers
J.A. Ratafia-Brown (McLean, VA, USA) 139

Trace element behavior during coal combustion: results of a laboratory study
J.J. Helble (Andover, MA, USA) 159

Trace metal transformation mechanisms during coal combustion
W.P. Linak (Research Triangle Park, NC, USA) and J.O.L. Wendt (Tucson, AZ, USA) ... 173

Trace element behavior in coal-fired power plants
R. Meij (Arnhem, The Netherlands) 199

Predictions of metals emissions and partitioning in coal-fired combustion systems
R.G. Rizeq, D.W. Hansell and W. Randall Seeker (Irvine, CA, USA) 219

Session Two: Partitioning of Trace Elements in Power Plants 237

Recent advances in sampling and analysis of coal-fired power plant emissions for air toxic compounds
J.A. Cooper (Tigard, OR, USA) 251

Multiple metals stack emission measurement methodology for stationary sources, current status
T.E. Ward (Research Triangle Park, NC, USA) 259

Development and validation of the US EPA hexavalent chromium source emissions measurement method
S.C. Steinsberger, W.G. DeWees (Cary, NC, USA), A.C. Bell, R.A. Finken (Tustin, CA, USA), J.E. Knoll and M.R. Midgett (Research Triangle Park, NC, USA) 265

A laser-based technique to continuously monitor metal aerosol emissions
W.L. Flower, L.W. Peng (Livermore, CA, USA), M.P. Bonin (San Ramon, CA, USA), N.B. French, H.A. Johnsen, D.K. Ottesen, R.F. Renzi and L.V. Westbrook (Livermore, CA, USA) 277

Innovative instrumentation for characterizing emissions of toxic metals
M.D. Durham, R.J. Schlager and D.E. Hyatt (Englewood, CO, USA) 285

Session Three: Sampling and Analysis of Trace Elements in Combustion Gases 301

Gambling in Latin: incorporating uncertainty in risk management (Keynote Paper)
L.B. Gratt (San Diego, CA, USA) and L. Levin (Palo Alto, CA, USA) 309

Dynamics of pyrogenous fumes
R.C. Flagan (Pasadena, CA, USA) 319

The use of recycle for enhanced volatile metal capture
W.D. Owens (Salt Lake City, UT, USA), A.F. Sarofim (Cambridge, MA, USA) and D.W. Pershing (Salt Lake City, UT, USA) 337

Metal capture by sorbents in combustion processes
M.V. Scotto, M. Uberoi, T.W. Peterson, F. Shadman and J.O.L. Wendt (Tucson, AZ, USA) 357

Metal capture by sorbents during fluidized bed combustion
T.C. Ho, H.T. Lee, H.W. Chu, J.R. Hopper (Beaumont, TX, USA) and W.D. Bostick (Oak Ridge, TN, USA) 373

Session Four: Opportunities for Controlling Toxic Trace Element Emissions: In-Furnace Control 389

Trace element control in electrostatic precipitators and fabric filters
E.B. Dismukes (Birmingham, AL, USA) 403

Activated carbon injection in spray dryer/ESP/FF for mercury and toxics control
K. Felsvang (Columbia, MD, USA), R. Gleiser (Houston, TX, USA), G. Juip (Becker, MN, USA) and K. Kragh Nielsen (Soeborg, Denmark) 417

Toxics control by activated charcoal within the "System Düsseldorf" full scale experience
S. Streng (Essen, Germany) and B. Kassebohm (Düsseldorf, Germany) 431

Scientifically valid leaching of coal conversion solid residues to predict environmental impact
D.J. Hassett (Grand Forks, ND, USA) 445

Session Five: Opportunities for Controlling Toxic Trace Element Emissions: Postcombustion Control 461

Panel discussion by chairpersons 474
